

# PIPERA-SAN®

## Anthelmintic

To treat worm infestation

### COMPOSITION (each liter contains):

Piperazine citrate ..... 250 g

### DESCRIPTION:

PIPERA-SAN® is an anthelmintic (piperazine) which is effective against adult nematodes. Piperazine works by preventing the continuation of neuron impulse and blockading the creation of succinic acid of worms so that the worms can be excreted through feces.

### INDICATION:

PIPERA-SAN® is recommended to treat worm infestation caused by nematodes in:

- Poultry : *Ascaridia galli*, *Heterakis gallinarum*
- Swine : *Ascaris suum*, *A. lumbricoides*,  
*Oesophagostomum* spp.
- Cattle, sheep, and goat : *Neoascaris vitulorum*, *Haemonchus* spp.,  
*Strongylus* spp., *Oesophagostomum* spp.
- Horse : *Oxyuris equi*, *Parascaris equorum*
- Dog/cat : *Toxocara canis*, *Toxascaris leonina*
- Rabbit : *Passalurus ambiguus*
- Monkey : *Oesophagostomum* spp.

### DOSAGE AND ADMINISTRATION:

Animals	Dosage (ml/kg of body weight)	Administration
Poultry	1	Drinking water Repeat treatment every 4 weeks
Cattle, horse, sheep, goat, pig	1.1	
Rabbit	2	
Dog & cat	0.2-0.3	
Monkey	0.7	

Note: Administration on poultry: 1 ml/2.7 kg of body weight for 2 consecutive days

### PRECAUTION:

Animals should not be slaughtered until 5 days after the last treatment

### PACKAGING:

- 100 ml (bottle)
- 1 l (jar)
